

DESIGN SAFETY TO SAVE LIVES SEMINAR

AJ Bell Stadium Manchester A half day seminar 23rd November 2016

The North West Safety Initiative (NWSi) in partnership with HSE invite you to a seminar on the roles and responsibilities for designers and clients under the Construction Design and Management Regulations 2015.

This construction health and safety seminar aims to increase the understanding of the management of construction projects. We will provide details on the successful management of a variety of different construction projects from conception through to completion. We will also be exploring the potential human and financial costs when things are not properly planned.

The target audience for the event are Clients and Designers. It will also be suitable for project managers, senior management/directors of construction companies, and health and safety advisers. The seminar will be delivered by high profile individuals and HSE specialists. NWSi also appreciate the input of the RIBA and the Environment Agency into the design of the day.

Our speakers include:

Andy Gay - Head of Construction Unit (HSE)

Paul Bussey - Author of the RIBA promoted "CDM 2015- A guide for Architects and Designers"

Stephen Barnfield - Senior Associate Hill Dickenson LLP

Russell Adfield - Head of CDM sector (HSE)).

We look forward to meeting you at the event.

Ian Crowe
Chair North West Safety initiative
